PRODUCT ENGINEER

November 2023 - Current

- Utilized Redux for state management, resulting in a 25% reduction in code complexity and a 15% increase in team productivity.
- Identified and resolved performance and scalability issues, resulting in a 50% increase in page load speed and a 20% increase in user engagement.
- collaborate and maintained responsive web applications using React, Redux, axios and Redux tool kit.
- Integrated CI/CD pipelines for automated build, testing, and deployment processes, streamlining development workflows and accelerating 2 time to market.
- Directed the adoption of agile and scrum practices, fostering collaboration across teams and enhancing software quality; this approach led to a 30% improvement in customer satisfaction and a 20% increase in product adoption rates.

Bharat Matrimony

Chennai

Reactjs Frontend Intern & Jr React Frontend

March 2023 - Nov 2023

- Promoted from Intern to full time developer in Just 3 months.
- Deployed user-friendly web applications using React.js, leveraging component-based architecture and virtual DOM for efficient rendering and enhanced performance by 10%.
- Implemented complex UI features and functionalities using JSX, functional components ensuring compatibility across various browsers and devices.
- Managed application state effectively with Redux, employing state management best practices for scalable and maintainable codebase.
- Conducted thorough unit testing and integration testing using industry-standard frameworks to ensure code quality and reliability.
- Optimized application performance through code splitting, lazy loading, and memoization techniques, resulting in 10% faster load times and improved user experience.

Projects

TastyBytes

Reactjs ,axios,api

[Live Demo](#)

Food Recipe app

- Developed a user-friendly food recipe app using React.js, Axios, and API integration, ensuring seamless data fetching and management.
- Implemented responsive design principles to optimize the app's compatibility across various devices, enhancing user experience.
- Refactored agile methodologies, conducted thorough testing, and collaborated closely with cross-functional teams to deliver a high-quality and scalable solution within project timelines.

Admin Nexus

React.js

[Live Demo](#)

Admin Dashboard app

- Designed and built an admin dashboard utilizing React.js and Chart.js for data visualization.
- Integrated dynamic UI elements with real-time data updates and included dark/light mode functionality for user customization.
- Ensured cross-browser compatibility, responsiveness, and Integrated agile methodologies for timely project completion.

TechnicalSkills

- | | | |
|-------------------------------------|-------------------------------------|--|
| • HTML5 | • RESTful APIs | • Agile/Scrum development environment |
| • CSS3 | • Build Tool:Webpack ,NPM and Babel | • Client-side rendering &server-side rendering |
| • Framework:Bootstrap,Tailwind Css, | • Version Control:Git&Github | • Responsive design |
| • Material UI | • React Router V6 | • Debugging,Scale,Reusable code. |
| • Javascript (Es6) | • UX/UI designers :Figma | • DOM manipulation |
| • Reactjs 18 | • Jest testing library | • Virtual Dom |
| • Redux&RTK | • Node.js | • use of hooks |
| • Axios | • Firebase | |
| | • Typescript and Next js (Basic) | |

Education

BR Ambedkar Bihar University - [BRABU], Muzaffarpur

Bihar, India

BCA(Bachelor of Computer Applications)

June. 2019 - May. 2022

8.04/10

Awards

- five time silver medal winner in Higher Secondary.
- In Quiz competition our team win in which,i was captain of team.
- Language:Fluent in English and Hindi.
